

# Chlorine Injectors

**(Venturi Nozzles - also called chlorine ejectors or inductors)**

All chlorine ejectors are available with multiple nozzle sizes. Nozzle charts are available in the O&M Manual of the appropriate gas or liquid feed system.

Also available for Ammonia and Sulfur Dioxide Feed System

Any questions - please contact us.

**EJ-1000-IS**

*Features*

- Self-centering O-ring check valve
- Gas feed of 100 PPD
- 3/4" NPT connections
- Comes standard with Model 500

**EJ-1000-DCIS**

*Features*

- Dual Self-centering O-ring check valves
- Gas feed of 100 PPD
- 3/4" NPT connections
- Optional with Model 500

## EJ-2000-IS / EJ-5000-IS

### Features

- Self-centering O-ring check valve
- Gas feed of 250 / 500PPD
- 1-1/4" NPT connections
- Comes standard with Model 200 / 700

## EJ-2000-KTIS / EJ-5000-KTIS

### Features

- PTFE Teflon Diffuser minimizes/eliminates scaling.
- PVDF Kynar Nozzle
- Self-centering O-ring check valve
- Gas feed of 250 / 500PPD
- 1-1/4" NPT connections

#### EJO-100CL2-IS

#### Features

- O-ring style check valve
- Gas feed up to 100 PPD
- 3/4" NPT (or 1" hose) connections
- Comes standard with Series 800 / 300

#### EJO-100CL2-HPIS

#### Features

- High Pressure Design (for back pressures up to 300 PSI)
- O-ring style check valve
- Gas feed up to 100 PPD
- 3/4" NPT (or 1" hose) connections
- Optional with Series 800 / 300
