

CHLORINE INSTITUTE USA

# EMERGENCY KIT "B" FOR TON CONTAINER

- Available for Chlorine and Ammonia Service
- Meets Chlorine Institute USA Standard

The Chlorine Institute Emergency Kit "B" is manufactured to the design specifications of the Chlorine Institute. The Emergency Kit "B" contains devices to stop leaks at the valves, fusible plugs, and in the side wall of chlorine one ton containers which conform to specification DOT106A500X.

Two instruction booklets explaining the application of each device are included.

#### EMERGENCY KIT "B" FEATURES:

Device #4: a capping device designed to contain leaks in and around ton container fusible plugs.

Device #12: designed to contain leaks in and around the ton container valves.

Device #8: a patching device designed for sealing leaks in the ton container side wall.

Kit B also includes a variety of hand tools, inspection seals and additional sealing devices. All items are labeled with a part number, color coded yellow and stored inside a durable polyethylene tool box.
